

FALLSTOP® ADVENTURE SAFE LINK SSB® RR

SAFE LINK SSB® RR – The smart belay system for climbing centers with autobelays

FALLSTOP® ADVENTURE

SAFE LINK SSB® RR

The intelligent belay system for autobelays

Benefits for operators:

Users can clip in themselves

- Save personell costs
- Reduces waiting times

User can clip in only at the right attachment point

The ID-Point TWEEZLE RR ensures that the SSB carabiner (short lanyard) is clipped in the right attachment point of harness. Incorrect pionts like the webbing or material loops are excluded.

User can clip out only after the system is locked at the bottom

The SSB carabiner on the harness can only be removed after the second SSB carabiner (long lanyard) was locked in the TWEEZLE 9.ONE at the mat.

SAFE LINK SSB® with Swivel and TWEEZLE 9.ONE

TWEEZLE 9.ONE (at the mat)
and TWEEZLE RR at the harness
